## How to Safely Dispose of Expired or Unwanted Medicine

## **Disposal Kiosk Sites**

Many pharmacies and law enforcement agencies have disposal kiosks where you can get rid of unwanted, unused, or expired over-the-counter (OTC) and prescription medicines. To find a kiosk site near you, check out this locator on <a href="MyOldMeds.com">MyOldMeds.com</a>.

## **In-Home Disposal**

If there is not a kiosk located near you, follow these simple steps to dispose of OTC and most prescription medicines in your household trash:

Remove the medicines from their original containers\* and mix them with something undesirable, such as used coffee grounds, dirt, or cat litter.

Put the mixture in something you can close, like a sealed plastic bag.

Throw the container in the trash.

\* Be sure to scratch out all your personal information on the empty medicine packaging or bottle to protect your identity and privacy before throwing it away.

## **Should My Medicine Be Flushed?**

The U.S. Food & Drug Administration (FDA) has a flush list for specific medicines that should be flushed down the toilet if a disposal kiosk is not available. View the list on <u>FDA's website</u>.
